BS in Manufacturing Engineering (396541) MAP Sheet
Engineering, Manufacturing Engineering
For students entering the degree program during the 2022-2023 curricular year.

Students are taught how to be leaders in the manufacturing industry. A large majority of graduates are offered management positions within 5 years of graduation, and these managers are best prepared by a combination of a technology background in manufacturing and a solid business education. This double emphasis is inherent in the manufacturing engineering technology program.

Manufacturing graduates receive an accredited, professional, four-year BS degree in Engineering and can opt to take the classes required for a minor in Business.

The professional responsibilities of manufacturing graduates may range from solving specific process problems to deciding where to build a new factory (and how to equip and staff it). Manufacturing Engineering encompasses the research, planning, design and implementation of production facilities, machine tools, people and systems for the manufacture of discrete products of specified quality with a minimum expenditure of time, labor and materials.

University Core and Graduation Requirements

*THESE CLASSES FILL BOTH UNIVERSITY CORE AND PROGRAM REQUIREMENTS (17 hours overlap)

Graduation Requirements:
Minimum residence hours required 30.0
Minimum hours needed to graduate 120.0
Suggested Sequence of Courses

Freshman Year

1st Semester
MFGEN 1303.0
MATH 1124.0
PHSCS 1213.0
First-year Writing or A HTG 1003.0
Religion Cornerstone course2.0
TECH 1121.0
Total Hours16.0

2nd Semester
First-year Writing or A HTG 1003.0
ME EN 2723.0
CE EN 1033.0
MFGEN 2911.0
BIO 1003.0
Religion Cornerstone course2.0
Total Hours15.0

Sophomore Year

3rd Semester
CE EN 203 3.0
CHEM 1054.0
STAT 2013.0
MFGEN 2203.0
Religion Cornerstone course2.0
Total Hours15.0

4th Semester
MATH/Science Elective*3.0
ME EN 2503.0
MFGEN 2303.0
TECH 2313.0
Religion Elective2.0
Religion Cornerstone course2.0
Total Hours16.0

*Please see advisement office for approved math/science electives.

Junior Year

5th Semester
WRTG 3163.0
MFGEN 3314.0
MFGEN 3403.0
MFGEN 3910.5
MATH/Science Elective*3.0-4.0
Religion Elective2.0
Total Hours15.5-16.5

*Please see advisement office for approved math/science electives.

6th Semester
MFGEN 3813.0
MFGEN 3553.0
MATH/Science Elective*3.0-4.0
Civilization I 3.0
CS 1423.0
Total Hours 15.0-16.0
Spring/Summer
MFGEN 399R 1.0
Total Hours 1.0
*Please see advisement office for approved math/science electives.
Senior Year
7th Semester
MFGEN 4013.0
MFGEN Technical Elective* 3.0
ME EN 4753.0
MFGEN 3333.0-4.0
Civilization II & Arts or Letters 3.0
Total Hours 15.0-16.0
*Please see advisement office for approved MFGEN technical electives.
8th Semester
ME EN 4763.0
MFGEN 4910.5
MFGEN Technical Elective* 3.0
MATH/Science Elective* 3.0-4.0
Arts or Letters 3.0
Religion Elective 2.0
Total Hours 14.5-15.5
*Please see advisement office for approved math/science electives and MFGEN technical electives.
*Your advisor and faculty can assist you in choosing technical electives

Note: Students are encouraged to complete an average of 15-16 credit hours each semester or 30-31 credit hours each year, which could include spring and/or summer terms. Taking fewer credits substantially increases the cost and the number of semesters to graduate.

Note: 123 credit hours are required to graduate with this degree.

BS in Manufacturing Engineering (396541) 2022-2023 Program Requirements (94 Credit Hours)
Students must have a minimum of 123 total hours (including major, GE, and Religion hours) to graduate with this major.

requirement 1 Complete 12 courses
MFGEN 130 - Modern Manufacturing 3.0
MFGEN 220 - Material Removal 3.0
MFGEN 230 - Computer-Aided Manufacturing 3.0
MFGEN 291 - Manufacturing Leadership 1.0
MFGEN 331 - Metals Processes 4.0
MFGEN 333 - Industrial Automation 3.0
MFGEN 340 - Quality Systems in Manufacturing 3.0
MFGEN 355 - Plastics Materials and Processing 3.0
MFGEN 381 - Lean Manufacturing & System Design 3.0
MFGEN 391 - Junior Seminar 0.5
MFGEN 401 - Data Analysis 3.0
MFGEN 491 - Senior Seminar 0.5

requirement 2 Complete 1 hour from the following course(s)
MFGEN 399R - Academic Internship 3.0v
You may take up to 3 credit hours.

requirement 3 Complete 12 courses
Supporting courses:
*BIO 100 - Principles of Biology 3.0
C S 142 - Introduction to Computer Programming 3.0
CCE 103 - Engineering Mechanics--Statics 3.0
CCE 203 - Engineering Mechanics--Mechanics of Materials 3.0
CHEM 105 - General College Chemistry 1 with Lab (Integrated) 4.0
*MATH 112 - Calculus I 4.0
ME EN 250 - Science of Engineering Materials 3.0
ME EN 272 - Engineering Graphics--Principles and Applications 3.0
PHSCS 121 - Introduction to Newtonian Mechanics 3.0
STAT 201 - Statistics for Engineers and Scientists 3.0
TES 112 - Innovation Bootcamp 1.0
*WRTG 316 - Technical Communication 3.0
requirement 4 Complete 1 course
ENG T 231 - (Not currently offered)
*TECH 231 - Foundations of Global Leadership 3.0
requirement 5 Complete 2 courses
Technical Elective courses:
IT&C 318 - Electronics, Computers, and Manufacturing 3.0
MFGEN 372 - Design for X 3.0
MFGEN 431 - Tool Design 3.0
MFGEN 433 - Introduction to Smart Manufacturing 3.0
MFGEN 456 - Introduction to Composites 3.0
MFGEN 479 - Innovation and Entrepreneurship 3.0
MFGEN 481 - Manufacturing Systems and Simulation 3.0
requirement 6 Complete 12.0 hours from the following course(s)
Math, Science, and Statistics supporting courses:
CHEM 106 - General College Chemistry 2 3.0
CHEM 351M - Organic Chemistry 1 - Majors 3.0
CHEM 357 - Industrial Organic Chemistry 3.0
MATH 113 - Calculus 2 4.0
MATH 213 - Elementary Linear Algebra 2.0
MATH 215 - Computational Linear Algebra 1.0
MATH 334 - Ordinary Differential Equations 3.0
PHSCS 123 - Introduction to Waves, Optics, and Thermodynamics 3.0
STAT 462 - (Not currently offered)
STAT 466 - Introduction to Reliability 3.0
STAT 511 - Statistical Methods for Research 1 3.0
STAT 512 - Statistical Methods for Research 2 3.0
requirement 7 Complete 2 courses
ME EN 475 - Integrated Product and Process Design 1 3.0
ME EN 476 - Product Development 2 - Capstone 3.0
requirement 8
Complete department packet and exit interview.

THE DISCIPLINE:
Manufacturing is an exciting and rewarding discipline that has significant impact on a society’s standard of living and economic independence. At BYU the manufacturing program is specifically oriented toward creating leaders in the industry. Students in manufacturing learn creative and analytical skills that will enable them to quickly diagnose and solve manufacturing problems with insight from both engineering and management perspectives. They also develop interpersonal and communication skills that will prepare them to work as part of an engineering team and effectively interact with vendors, management, and production personnel. In addition, they receive hands-
Manufacturing professionals are knowledgeable and skilled in the management, methods, technologies, equipment, and tooling needed to produce affordable products of high quality. They are able to effectively coordinate the procurement, installation, and start-up of production equipment as well as improve the productivity of existing operations. They are also able to coordinate manufacturing and supply-chain operation in a global setting. Graduates may further their technical and managerial skills by pursuing either a master of science in technology or a master of business administration.

RESEARCH OPPORTUNITIES:
Students can work on a variety of industry-sponsored and related projects, often working directly with manufacturing engineers in industry. Manufacturing classes sometimes integrate these projects into the course work, but other industrial projects can be done outside of class, usually for pay. The excellent equipment and facilities in the department provide the resources where industry projects can be effectively accomplished.

INTERNSHIPS:
Professional training in actual companies is required and the advisor in the department can help students who desire to complete an internship. Both domestic and international internship opportunities are available for credit (and usually some pay). Many internships lead to permanent employment with the sponsoring company. Internships also offers a great chance for students to understand how their education is actually applied and to investigate further career directions and potential focus areas in their education.

PROFESSIONAL AND HONOR SOCIETIES:
The department sponsors strong student chapters of national societies associated with manufacturing and materials including the Society of Manufacturing Engineers (SME) and the Society of the Advancement of Materials and Process Engineering (SAMPE). Students may also participate in the national engineering technology honor society, Tau Alpha Pi and other honor societies.

FINANCING:
Many students can receive financial aid from department-sponsored scholarships or part time employment. The employment can be as teaching/lab assistants, apprentice engineers working on an industry sponsored project, or research assistants under the direction of a faculty member.

BS in Manufacturing Engineering (396541)2022-2023

CAREERS:
Career opportunities in manufacturing are plentiful and rewarding. Typical entry-level job titles include manufacturing engineer, quality manager, process engineer, tool engineer, product engineer, quality engineer, production supervisor, and account manager (technical sales). New graduates are typically hired into technical positions but have the opportunity to quickly move into management. The job outlook for manufacturing graduates is bright and should continue to be strong in the future. When one considers that everything that does not exist as part of nature is the product of some form of manufacturing, it is easy to see that manufacturing is an integral part of society and generates an ever-growing workforce. Progressive companies worldwide seek qualified individuals who can provide leadership in improving the quality and productivity of their manufacturing operations.

MAP DISCLAIMER
While every reasonable effort is made to ensure accuracy, there are some student populations that could have exceptions to listed requirements. Please refer to the university catalog and your college advisement center/department for complete guidelines.
