GENERAL INFORMATION:
The Department of French and Italian strongly recommends that STDEV 317, a 1-credit-hour course, be taken at the end of the sophomore year or the beginning of the junior year. Because liberal arts degrees provide preparation in a variety of useful fields rather than a single career track, this course is recommended to help liberal arts students focus on specific educational and occupational goals and to identify the career options or educational opportunities available to them. The course will introduce them to the resources needed for accessing information about graduate schools, internships, careers, and career development. Students will learn basic employment strategies, including the steps necessary for obtaining employment related to their own specialty.

Study Abroad/Internship Program:
All students of Italian are encouraged to participate in a Study Abroad or Internship program in Italy. The programs provide excellent opportunities for developing language proficiency and better understanding of the history and culture of Italy.

Program Learning Outcomes:
1. Linguistic Ability: Successful students will place at least at the “Intermediate High” range in Italian speaking, listening, writing, and reading on the ACTFL Proficiency Scale.
2. Research: Students will analyze the literature, language, and culture of Italy drawing upon their ability to locate and consult relevant primary,
3. Critical Thinking: Based on their chosen interdisciplinary curriculum, students will demonstrate the ability to articulate and defend in speech and writing clear and orderly thought on Italian literary and cultural topics.

THE DISCIPLINE:
The study of Italian language and literature sharpens analytical and communicative skills. Students develop proficiency in listening, reading, writing, and speaking, and they learn to use literature as a means to discover and broaden their understanding of culturally specific as well as universal issues and values.

CAREERS:
Italian is a valuable research and communication tool for students in music, art, history, European studies, international relations, library science, and comparative literature. Many have chosen a major or minor in Italian in addition to a second major or minor in an area such as accounting or business management, or as preparation for professional programs in public administration, business administration, organizational behavior, dentistry, law, or medicine. Many students have opted for a career in government service, working with an embassy, the State Department, the CIA, and other government agencies. Other students have gone into travel and tourism, working with tour agencies, airlines, major hotel chains, or resort communities. The computer industry also provides employment opportunity. Many computer companies have expanded into foreign markets and hire people who can translate computer equipment and software instruction and sales publications in a foreign language.
